

## **Vinyl Decks Care & Maintenance**

The Carpet Studio's Vinyl covered decks are designed for easy care and maintenance.

Vinyl covered decks can greatly enhance the value and enjoyment of any home. And an added benefit is almost zero maintenance. That's right. Forget the sanding and restraining ritual each spring or fall. A quick sweep with a broom or a spray of the hose and maybe a light soap wash is all that is needed. We all know the look of new cedar is beautiful - and it smells so nice too. But that will only last for a few months and then the regular maintenance begins.
